

About us:

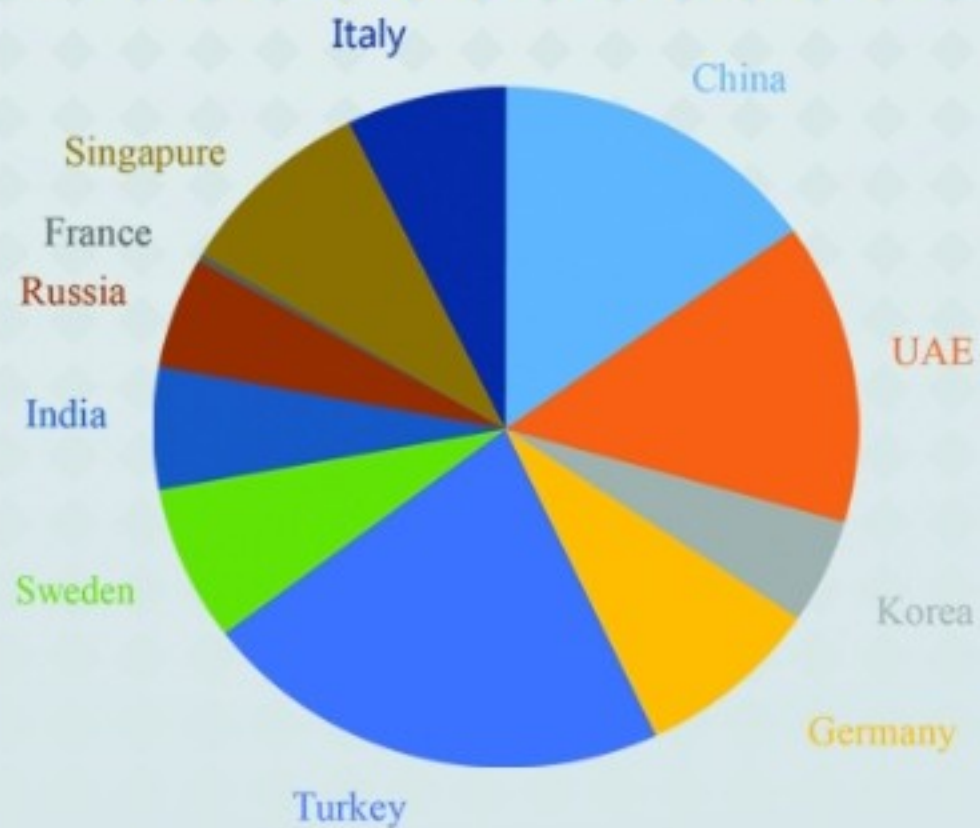

Payam Angha International Transportation Company managed by Ali-Asghar Jangavaran has begun operating in 1996 with the aim of supporting seller and buyer goods chain in order to develop and increase the economic cycle with competitive prices.

This company is operated to transport various cargo as carrier and forwarder through Road, rail sea air and combination. In order to elevate the quality and services provided to our all dear customers, we have representations in Iran, Turkey and all over of Europe. In an average, we have 2000 cases of international transportations (more than 22000 tons of any kind of goods) annually, through land, sea and air.

Attention to develop the activity around the world, this company has succeeded to obtain the exclusive agency of **EKOL** Co. (one of the world's leading power in Logistic) in 2013.

We believe that our largest marketing is the satisfaction of our customers and for our customer satisfaction and confidence, our land and sea services are equipped with a GPS system and provide them with a complete report of the cargo's position. We have experienced and professional adepts for a wide variety of services, such as clearance, warehousing, custom affairs and all our business services would operate alongside your business. This enables us to help you anytime and anywhere.
